Climate Action and Impact Investing – how can Investors get Active

In a recent study by LGT Capital Partners, the over 200 investors surveyed (including pension funds, endowments and insurers from 28 countries) stated that Climate Action (Sustainable Development Goal/SDG 13) and Affordable and Clean Energy (SDG 7) are the two top SDGs to be addressed in their investment frameworks. However, the main challenge is still the concrete execution of these ambitions. How can investors commit to a sustainable development address climate change? In this workshop, we will provide insights into LGT Capital Partners' Climate Action Strategy, showing what it takes to align a multi-asset portfolio to the Paris Agreement. Furthermore, we will look at the role impact investing can play in it and which approaches can be utilized.

Keimpe Keuning

Keimpe Keuning is an executive director at LGT Capital Partners where he is responsible for ESG and sustainability in Private Markets including Private Equity. He is a member of the firm's ESG Committee and chairs the Private Markets ESG sub-committee. In his work activities he combines his investment experience with a strong client focus where discussions and solutions often revolve around portfolio insights, transparency and impact. Prior to joining LGT Capital Partners in 2018, Mr. Keuning was a portfolio manager for sustainable private equity at RobecoSAM in Zurich, a boutique investment firm focusing on sustainable and responsible investing. His main focus was on direct investments in climate technology companies. Before that he was with Robeco in Rotterdam where he was involved with a range of corporate development projects. Earlier in his career, he worked for Fortis Bank investment banking as an associate director corporate finance in Amsterdam. Mr. Keuning holds a Master's Degree in Tax Law from Leiden University and is a Chartered Alternative Investment Analyst (CAIA). He is a Dutch national and is fluent in Dutch, English and German.
