We kindly ask you to observe the precautionary measures stipulated by the Swiss Federal Office of Public Health (FOPH).

Any participants who feel unwell should not attend the conference. If you start to feel ill whilst attending the conference, we kindly ask you to leave the event immediately and contact us without delay.

We recommend you install the SwissCovid (contact tracing) app and keep Bluetooth turned on throughout your time at the conference. Prior to the start of your conference we will have gathered contact data including email addresses and phone numbers from every participant, partner and colleague who will be in attendance.

We kindly ask you to refrain from shaking hands with other people and to wash your hands regularly, observing the correct hand washing techniques.

It is your responsibility to observe a distance of at least 1.5 m from other people whenever possible. This applies to all networking areas and includes times when you are wearing a face mask.

In situations where a distance of at least 1.5 m from other people cannot be observed face masks must be worn. This particularly applies when participating in group discussions and travelling on shuttle busses. You may, of course, continue to wear a face mask throughout the day. It is your choice and a plentiful supply of face masks will be available throughout the event. We kindly ask you to put on a fresh mask after every break and to disinfect your hands before taking off your old mask and putting on a new one. Members of staff will wear masks at all times.

Wearing masks is compulsory in the SIX ConventionPoint conference hall. All seats in the Gottlieb Duttweiler Institut’s main hall have been partitioned with clear plastic screens and therefore face masks do not need to be worn. If you feel more comfortable watching proceedings from the main hall via video link you may do so in the restaurant area. Our catering partners observe GastroSuisse hygiene rules.

During breaks all seats will be fully disinfected by members of staff wearing masks and gloves.

Please make use of the hand sanitisers provided at the entrance/exit of every room and use them when entering and leaving the rooms.

The cloakroom cannot be staffed but will be supervised throughout the day. You may drop off and pick up your jacket/coat and bags at/from the cloakroom.

Your name badge will be disinfected prior to your arrival. Our staff are at hand to help you find your badge but only you may touch it and pick it up.

Literature such as Finanz und Wirtschaft journals will continue to be provided. Kindly dispose of everything immediately after use. Our staff will also gladly take them off your hands.

We thank you for your cooperation and understanding!
