

CANDRIAM

A NEW YORK LIFE INVESTMENTS COMPANY

Sustainability and Growth in Emerging Market Equities

For more than a decade, Candriam combines its leadership in sustainable investing with its award winning management of Emerging Markets Equities. The strong track record demonstrates that the long-term value potential of an Environmental, Social & Governance (ESG) approach combined with the long-term growth potential of emerging markets is a value-enhancing combination.

The idea of the workshop is to enable participants to understand how one can invest in emerging market equities in a sustainable way and have a positive impact on the development of these regions. Moreover, it will show how a sustainable strategy in emerging markets can reduce investment risk while realising the full return potential of this asset class.

The session will of course also include an update on market developments and an explanation of where the biggest opportunities lie in emerging markets for 2022.

Paulo Salazar

Paulo Salazar joined Candriam in 2015 as an equity research analyst covering emerging markets. Paulo has over 15 years of experience in private equity and financial markets. Prior to joining the firm, Paulo was a private equity associate at The Riverside Company based in Brussels. Prior to that, he worked with equity research for GWI Asset Management, Equitas Investimentos and Banco Itau in Brazil covering several industries in Latin America and the United States. Paulo earned his B.B.A. in Corporate Finance and Financial Markets from FGV-EAESP in Sao Paulo and has an International Diploma in Finance from University of California, Berkeley Extension. Paulo is Brazilian, born in Sao Paulo, and is a Portuguese citizen.
